

Pickleball Cocktail®

Finally... a cocktail you should drink at 7am.

What is Pickleball Cocktail®?

A sugar-free, delicious orange-flavored electrolyte powder with 800mg of Potassium, roughly the equivalent of two bananas. Also includes DiMagnesium Malate (a patented, energizing form of Magnesium), as well as Sodium-Chloride from Redmond's Real Salt® which has important trace minerals that regular sodium-chloride doesn't have. Finally, we don't use any sugar or caffeine. Zero. Yes, sugar & caffeine can give you a spike in energy... but that's really just a band-aid.

Pickleball Cocktail® may help*:

- ✓ Support healthy, relaxed muscle tone on the court.*
- ✓ Replenish important electrolytes lost through sweat.*
- ✓ Maintain proper fluid balance within your cells.*
- ✓ Promote healthy energy levels.*

"Great drink for my patients! I'm not aware of any other electrolyte formula that has 800 milligrams of potassium, which is 17% of the recommended daily intake... By comparison, 20 ounce bottle of Gatorade has 75mg of potassium, only 2% of the RDI. Oh, and gatorade has 34 grams of sugar. The choice for serious athletes is obvious. Well done Jigsaw. Recommending this to all my active patients, whether they play pickleball or not." — DR. KEITH CHAMBERS

Pickleball Cocktail® is:

- ✓ Non GMO
- ✓ Soy Free
- ✓ Gluten Free
- ✓ Vegan Friendly

Supplement Facts

60 servings per container			
Serving Size		1 packet (5 g)	
Amount per serving		10	
Calories			
		Amount per serving	%DV**
Total Carbohydrate		1 g	<1%
Total Sugar		0 g	
Includes 0g Added Sugars			0%
Sodium (as Redmond's Real Salt®)		90 mg	4%
Potassium (as potassium chloride)		800 mg	17%
