Rise Manuka Complex Cream is made from farm fresh natural and organic ingredients sourced from sustainable farmers around the world.

Due to the fact that we use fresh essential oils, botanicals, fruits, herbs and extracts the scents and colors can vary from crop to crop. For example: we noticed the latest batch of our fresh coco butter and beeswax has a bit stronger scent than usual.

Unlike many cream manufacturers, we refrain from using synthetic fragrances to mask the natural scent, nor do we use synthetic chemicals such as EDTA, which keeps creams and lotions white, but can create havoc on your health!

Fresh, healthy, natural, and organic ingredients make a difference and our 21 Complex Cream is effective from head to toe!

We welcome your feedback!

Thank you and kind regards,
