What is PectaSol?

PectaSol is a specialized form of citrus pectin, modified via a proprietary enzymatic and pH process to produce a highly absorbable and bioactive super-nutrient with a comprehensive range of essential health benefits—all the way down to the cellular level.*

- High performing cellular activity*
- Immune balancing*
- Safe detoxification*
- Optimal aging*

Unparalleled support for total-body health and aging.*

High-Performing Cellular Activity*

PectaSol works through unique mechanisms to optimize cellular activity and communication. Independent, third-party research and multiple clinical studies continue to demonstrate PectaSol's unparalleled ability to promote optimal cell, organ and tissue function, with extensive benefits for long-term health and wellness.*

Immune Balancing*

Rather than boosting your immune system, PectaSol works to balance and optimize immune activity for the most appropriate response. This helps ensure healthy defenses, while preventing damaging immune over-reactions—so vital organs and tissues can stay healthy.*

Safe Detoxification*

PectaSol is clinically proven to safely reduce body burden of toxic lead, mercury, arsenic and other environmental toxins, without disrupting essential minerals.*

PECTASOL[®]

MODIFIED CITRUS PECTIN

Optimal Aging*

PectaSol's ability to promote a healthy life span is attributed to its unique structural properties that work to promote healthy cells, tissues and organs against deterioration that comes with normal aging.*

Enhances Other Protocols*

One of PectaSol's most remarkable actions is its proven ability to synergize with other protocols and approaches, for enhanced benefits and greater results. PectaSol is shown in published studies to work synergistically with conventional oncology approaches, as well as ecoNugenics formulas BreastDefend, ProstaCaid and HonoPure for even greater cellular and total-body benefits.*

Super-nutrient for
total-body health.*

6 capsules 3 times per day

150 & 454 gram Powder

Tangerine
Chewables (120 ct.)

CHEWABLES

General Support
2 tablets twice per day

184 & 551 gram Powder
(150g / 454g of MCP)

POWDER

Maintenance Support
1 scoop per day

Maximum Support
3 scoops in 2/3 divided
doses through the day

how to mix our powder.

serving size

1 scoop = ~5g MCP

1

Put your recommended # of scoops in cup or shaker bottle

2

Add 8-12 oz water (hot, room or cold) / can add to tea up to 140°F

3

Stir / blend for 10 seconds, or shake in shaker until powder is dissolved

tips.

PectaSol's state of the art fine spray dried powder process and the differences in regional water supplies can sometimes be tricky to mix well.

It's best to use one of the shaker/blender bottles that are readily available, for consistent results and efficiency. The ones with a "whisk" ball work great.

Don't worry if it all doesn't go completely into solution—give the container a good shake, or stir with a fork before taking another drink. Continue mixing to disperse as you drink.

PectaSol® Modified Citrus Pectin is manufactured exclusively for:
